Dear Mr. Akhavan,

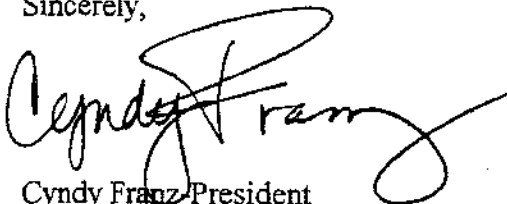

Mike's Club Towing started out 6 years ago with three tow trucks, since then we have increased our fleet to eighteen trucks. Ten of those trucks are on the freeways 8-10 hours a day. You can imagine the amount of debris on the right shoulder and the center dividers - What a tire "Nightmare".

Prior to using Ride-On Tire Protection System, we had to repair tires on a daily basis. Since we started using Ride-On TPS, we have reduced our number of flats by 87%! Besides reducing our operating cost, Ride-On has helped increase our fleet's efficiency and reduced our down-time.

Furthermore, by helping our tires maintain proper air pressure and run cooler, we anticipate a net savings of more than \$14,000.00 a year through tread life extension alone.

Thank you for introducing us to your great product. I would recommend Ride-On to anyone who cares about safety, unnecessary downtime, or maximum use of their tires.

Sincerely,

Cyndy Franz

Cyndy Franz - President
