Dear Mr. Farkhan,

We have been in the landfill business for 21 years. I am constantly given sales pitches that sound too good to be true. That's what I thought when Alban Tire approached me with the **Ride-On Tire Protection System**.

Prior to using your product in my fleet of four trucks I was having four to six flat tires every week. As everyone in our industry is aware flat tires are Down Time and that costs me money. Additionally some tires are ruined, driving the cost up more.

I would like to thank Alban Tire and the **Ride-On Tire Protection System** for virtually eliminating my Flat Tire problem. In the past three weeks I have had zero flat tires.

Thank You,

Mike Wilfong
Shop Manager
