400 South Beverly Drive
Suite 214
Beverly Hills, CA 90212

Dear Mansour:

I would like to take this opportunity to let you know how happy we are with your product (Ride-On TPS). South Bay Recycling has been in business for over 20 years. Due to nature of our business we are faced with many flats on daily basis. On the average we get **2 to 3 flats per week on our Loaders.**

We started using Ride-On TPS in December of 1998. We first started using Ride-On TPS on one of our Loaders which had continuously proven to get the most flats in our fleet. Ride-On TPS has **completely eliminated our down time due to flats** on that Loader. Subsequently we have been using your product with every new tire we install on our fleet vehicles.

We are now considering treating all of the trucks in our fleet regardless of new or used tires. I will not hesitate to recommend your product to any body who has similar problems as ours or anyone who is considering the use of your product for their fleets.

Sincerely

A handwritten signature in cursive script that reads "John S. Barile".
