Rod Scalf
New Vendor Development

Dear Rod:

After extensive testing and evaluation, I believe adding "Ride-On" to our product will enhance the safety and value of our product. We have several thousand miles on many different machines to include deliberate punctures that see no failure to date. Our wheel department endorses the product, and will be able to incorporate it into production with minimal labor.

Sincerely,

A handwritten signature in black ink, appearing to read "Norbert F. Richter".

Norbert F. Richter
